

INGCO 20V BRUSHLESS CORDLESS GRINDER 115MM

This grinder has a cordless hand-held design making it easy to carry and operate. It can be used to polish stainless steel security windows, cutting steel bars, ceramic tiles, marble, etc. Its dustproof structure with aluminium alloy head shell, brushless motor, and heat dissipation inside, provides for a longer service life. The multi-function side anti-slip rubber with self-locking function can reduce vibration in operation for better control. The anti-rotation protective cover provides for a high level of user protection with its double insulation to prevent touching the electrifying parts of the instrument.

WHAT IS IN THE BOX

- 1 x 20V Brushless Cordless Grinder (product code: CAGLI201158)
- Packed by colour box
